

Greeting to you from Kathmandu!

Forgetting the long days and hot sun, once again here I am into the winter's clear sky with the mountains views from where I am greeting to you in the most loving name of our Lord Jesus Christ.

Accept my apology for keeping silent since long time. My poor and lazy finger's tips are once again awaking you up by popping this mail into your devices. Thank you for your kind prayer and support for the works I am involve with glorifying our Lord Jesus Christ.

Church dedication service

Thank you very much for your prayer for the new worship building dedication service which had happened with great joy on 24th October. Sorry that you couldn't make your way to the special day. The new building was formally inaugurated by Nepal government's minister unveiling curtain of the memory stone. We felt this is a great privileged for making the Christian History of Nepal by opening up Church's new building by government representative. We assumed never ever any of the Nepalese Churches done before for what we have done. We new life church is greatly proud to our God for what he has done in our lives. All the glories and honor goes to our Lord Jesus Christ who made possible for his working using me a low profile person like me. I count this another miracle works into my life. My brother and sister I humbly appreciated your prayed and financial support, without your prayer it won't be happened. So once again thank you very much for the reason that we proud of the beautiful building. There were 50 pastors from different Churches and our distinguish guests around the town; we also invited our elders and pastors from our own branch churches from the villages. There were around 400 people on this special occasion to observe the function and blessing for the new building.

Our youth performed the special folk dance following with national anthem. Senior pastor from the well known Church talked from the word of God on the occasion these special days. Many pastors had opportunity to talk and interaction with the provincial minister demanding the guaranty of Christian rights in Nepal. Most of the Christian leaders were astonishing having the Nepal government's minister at our Church. Flowing are the few snaps shoots of the building and the function.

Bible College

New life awaking bible academy (Nawa jagriti bible academy) started by pastor's fellowship here in Kathmandu. We have been praying since long time. There are 26 students for the first time. The majority students are pastors from and leaders from 15 different Churches,

who never had opportunity before for the bible school. I think it is good opportunity those who are still working for the Church and do not have theological background. Please do pray for this mission. The class is reliable for the elders and pastors. My wife also had joined for the courses! They only can come 6 days in three months. The courses will finishes after three years with Diploma degree. Please do pray for the enough resources to do this. This is the faith ministry we started.

If God willing we would like to continue in the future too so really appreciate you prayer.

Election

The Nepal government had completed the local election six months ago. Once again the house of the representative and provincial election is in our door steps. It is going to happen this in November 20th which is few days to go. I am also visiting to the village Churches once again to encourage our fellowship at the village. There are some more people would like to give their lives to the Lord and want to take water baptism. May be this time would be too could for them here in Nepal. So better I will teach about baptism this time and will baptize them on summer! Marion School also doing very well at the village though there are not much children this time because they have pass out to the primary level and went to the secondary school to another village. Now there are only 10 children and waiting those mums who can bear more children for our primary school!

Orphans

Thank you very much for your prayer so we are continues supporting orphanage children as a scholarship program. You would know that we have to close down the accommodation for the orphans but continue supporting them by financially to continue their study. Nepal government changed their policy and stopped children adaptation from the village unless we provide them **A** grade accommodation in a two separate building for the boys and the girls. We couldn't afford to do that and had chosen second option to return them back to the villages where they were from and to their close relative to those who still alive keen to do foster care if we provide them money for them to schooling. So everyone agreed with us in the condition that we have to able to send money 9000 rupees to each, once in three months. Furthermore, we have to report to government once in a six months for how the children getting on with their guardians and their study at the local school. Praise God every one getting well and we are continue able to provide them scholarship once in three months. We feel it is really blessing to have such opportunity supporting those needy and deprived children. We wish we could help more children.

Once again thank you very much for your untiring prayer and eager for the ministry we are doing in Nepal.

We would appreciate if you can pray for the following subjects:

Prayer for the – Orphan's scholarship project so continue it for more needy children

Pray for the – New life guest house accommodation so we can develop it much better

Pray for the – Churches and the school at the village so go well

Pray for the – people of Nepal who are voting on 20 Nov. so it goes well

Pray for my family specially to our Children who starting college this year and Mahima is already studying in State and need more financial support over there.

Pray for the Church in Kathmandu and its leader to lead continue its members into the Lord

Your brother in His service,

Chitra karki and all the members of Nepal life Church
